Eliane Rozga believes in the immortality of the Soul and the healing powers of Love!
She paints FROM THE HEART...

Born in Belgium, Eliane immigrated to Canada with her family when she was a young child. She grew up with parents who had a Renaissance Spirit. They spoke several languages, greatly enjoyed music, art, literature, fashion, photography and the joys of the palette.

Although they came to this country with very little and had to work hard to support their family, they always had a joie de vivre and attitude of gratitude that had a strong influence on uplifting Eliane's psyche and art.

For 33 years, Eliane has worked in the television business, where she has met outstanding and extraordinary people, including Linus Pauling, Jane Goodall, James Brown and Yitzhak Rabin, to name a few, who touched her Soul with their amazing Spirits.

Eliane's focus is always on the power to Love and Spirit in all people and all things. 'Everything we are, have been, do, experience and dream is always about SPIRIT and LOVE.'

Her colourful compositions are the expressions of Spirit and Love that she sees in all things. Eliane creates FROM THE HEART, where there are no shadows, only Godliness.

"In Spirit and From the Heart, anything is possible."
